- Gives students and faculty a proactive approach to keeping school safe

Welcome to SafeSchool

PROACTIVE APPROACH

Addressing the need for the use of digital technology to prevent attacks is what will empower students and staff to be proactive in their environment.

SPI HAS YOUR SOLUTION

Safe School is designed to implement a technology solution to address the issue of school violence and other suspicious activities in schools. We understand that students desire a safe learning environment and a way to be involved in maintaining that status. Our app will allow students a secure way to inform faculty and law enforcement with real time notifications.

"All Accidents are Preventable"
